

Quality Website Solutions

# Standard Features

## Joomla

This award-winning content management system (CMS) allows us to build feature-rich websites and powerful online applications. Many aspects, including its ease-of-use and extensibility, have made Joomla the most popular CMS software available.

## Bulkmail

Included as standard with all of our packages, customers receive a Bulkmail.co.za account with up to 1000 credits (depending on your package) as well as a newsletter signup form on their websites.

## Mail Branding

In conjunction with Rocketseed, Gsite offers a mail branding solution that enables customers to increase brand awareness, website traffic, new business leads and their marketing footprint.

Gsite offers more than just a website!

## Web Hosting & E-Mail Accounts

All Gsite websites are hosted by Gmail.co.za and powered by high-quality Dell servers running CentOS.

All Gsite websites come with Cpanel, a control panel that makes administration of your domain's email accounts, statistics, and more a breeze.

## Search Engine Optimization

All Gsite packages include an initial SEO performed as our customers' websites are launched. Thereafter, our packages include monthly SEO maintenance to improve the ranking in search engine results. Our professional, targeted service aims to continually promote your online presence.
